APPLICATION FOR LIFE-OF-STRUCTURE PERMIT FOR A WATER TRANSMISSION LINE ACROSS SUBMERGED LANDS OF MAD RIVER SLOUGH, NEAR ARCATA, HUMBOLDT COUNTY, HUMBOLDT BAY MUNICIPAL WATER DISTRICT - W.O. 4099.

An application has been received from the Humboldt Bay Municipal Water District for approval of the construction of a bridge-type structure to support a water transmission line across Mad River Slough, to be located in the south half of the southwest quarter of the southeast quarter of Section 26, Township 6 North, Range 1 West, Humboldt Base and Meridian, near Arcata, Humboldt County (see Exhibit "A"). The five-inch diameter line will be supported on a bridge-type structure over the slough. No bond is required as the salvage value is such as to insure removal of the proposed installation.

Public Utilities Code Section 12808 reads as follows: "A district may construct works across or along any street or public highway, or over any of the lands which are the property of the State, and it shall have the same rights and privileges appertaining thereto as are granted to municipalities within the State. The district shall restore any such street or highway to its former state as near as may be, and in compliance with local ordinances, and shall not use it in a manner to unnecessarily impair its usefulness. A district may also construct its works across any stream or watercourse".
